

IIB MEMBERS

There are many unforeseen circumstances that can have a financial or reputational impact on your business. Professional Indemnity insurance protects you against legal liability to pay damages for persons sustaining a loss through a breach of professional duty or your civil liability. Public Liability covers your legal liability to pay compensation to third parties for bodily injury or damage to property arising from your business activities. Evidencing cover from a reputable insurer can improve your credibility with potential and existing clients and help you meet your clients' contractual requirements. That's why we have worked with leading specialist insurer Hiscox, to offer IIB members an insurance facility designed to help protect their businesses.

This can include replacement or repair of systems and websites, fees for a security consultant to review your electronic security, and fees for a forensic consultant to establish the identity of the hacker.
